ABOUT ME

Experienced Software Developer with a strong background in IT project environments, particularly within the banking and financial sector. Proficient in Object Oriented Analysis and Design Concepts, Core Java 8/11/21, and middleware frameworks such as Apache Camel and Spring/SpringBoot 3X. Skilled in building Microservices, RESTFul API, and RDBMS/NoSQLDB. Familiar with agile development methodology, Test Driven Development, Continuous Delivery, Pair programming, and System integration. Committed to delivering high-quality code with no technical debt within SonarQube.
